Pasture Mix

Pasture Mix

About:

Pure Seed's pasture mix is second to none in maximizing performance of dairy cows, sheep and horses. This mixture is formulated with the best varieties that Pure Seed has to offer.

Management:

Proper management is the key to sustaining a quality pasture, and healthy livestock. One needs to take into consideration fertilizing, chemical weed control, drainage and rotational grazing practices. This will vary base on geographical location, land size and cattle size.

Species in Mix:

- Orchardgrass
- Tetraploid Perennial Ryegrass
- Forage Tall Fescue
- White Clover

Traits:

- Increased Pasture Production
- Very High Yields
- High Nutritional Feed Value
- Improved Animal Performance
- Excellent Palatability

Technical Summary

Crude Protein:	Excellent
Total Digestible Nutrients:	Excellent
Forage Yields (dry matter):	Excellent
Palatability:	★★★★★
Usage:	 
	Cutting Grazing
