

Tall Fescue

MOONDANCE GLX

THE FOUNDATION OF EXCELLENCE

A research first approach of perfecting turfgrass performance.

Variety information

Description:

Moondance GLX tall fescue was developed by Pure-Seed Testing, Inc. It was selected for its exceptional tolerance to gray leaf spot and brown patch resistance. Moondance GLX also excels in drought tolerance, wear tolerance and overall turf quality. Moondance GLX is on the Maryland-Virginia list.

Applications:

Moondance GLX is a great choice for landscapes, parks, lawns, golf course roughs, reclamation, sod and sports fields. With its tolerance to summer diseases, Moondance GLX requires fewer inputs to maintain healthy turf. Its drought tolerance, cold tolerance and shade tolerance make Moondance GLX especially well-suited for a wide range of climates.

Geographical Adaption:

Moondance GLX performs well in the U.S. Transition Zone and in temperate climates. It is adapted to a wide range of soil types and pH. Recommended seeding rate is 5-8 lb/1000 ft² (245-390 kg/ha). Fertilize at 3-5 lb N/1000 ft²/yr (145-245 kg/ha); mow at 1.5-3.0" (4-8 cm); irrigate deeply and infrequently.

PRODUCT FEATURES

Brown Patch Resistance	●	●	●	●	●
Gray Leaf Spot Resistance	●	●	●	●	●
Wear Tolerance	●	●	●	●	●
Drought Tolerance	●	●	●	●	●

Seeding Rate 5-8 lb/1000 sq. ft (245-390 kg/ha)
