

RELENTLESS

THE FOUNDATION OF EXCELLENCE

A research first approach of perfecting turfgrass performance.

Variety information

Description:

Relentless Tall Fescue is a TWCA qualified turfgrass variety that is known for its excellent brown patch resistance, billbug resistance, and stem rust resistance. It is a drought-tolerant and heat-tolerant grass that is well-suited for a variety of climates. Relentless Tall Fescue is also a low-maintenance grass that requires less fertilizer and water than other types of turfgrass.

Applications:

Relentless is adapted for lawns, golf course roughs, cemeteries, parks, sod production, sports fields, roadsides and slope stabilization. Its drought tolerance makes Relentless especially well suited for residential or commercial lawns and low-maintenance turf areas. Relentless performs well in sun or shade.

Geographical Adaption:

Relentless performs well in the Transition Zone and temperate climates. It is adapted to a wide range of soil types and pH. Recommended seeding rate is 5-8 lb/1000 ft² (245-390 kg/ha). Fertilize at 3-5 lb N/1000 ft²/yr (145-245 kg/ha); mow at 1.5-3.0" (4-8 cm); irrigate deeply and infrequently.
