

PRODUCT SHOWCASE - NEW RELEASES

Our world-renowned research facilities are at the forefront of innovation. The goal is simple. Create products that solve problems. The execution takes decades of trialing. The results yield some of the most sought after products on the market. Pure Seed is proud to announce the latest product releases out of the Pure-Seed Testing research program:

Pure Eclipse [PURESEED Exclusive] bentgrass

Features a striking dark green color and fine leaf texture that produces a beautiful playing surface. A product of a rich heritage that includes the groundbreaking Penn A's & G's. With a dense, upright and aggressive growth habit, it also features an exceptional ability to compete against Poa-annua.

Disease Resistance

- Disease Resistance
- Spring Green Up
- High Density
- Color

PC2.0 (PC2 in EU) [PURESEED Exclusive in EU] bentgrass

Exhibits a stunning medium green color with a very fine leaf texture. Suitable for greens, tees, fairways, and divot repair. PC2.0 is a bentgrass variety that pays homage to the past with a look into the future. Displaying a dense, upright and aggressive growth habit, it also features an exceptional ability to compete against Poa annua.

Disease Resistance

- Drought Tolerance
- Dense Texture
- Winter Color
- Heat, Cold & Wear Tolerance

Lifeguard tall fescue

Is a new and improved tall fescue. It stands out in brown patch resistance, shade tolerance, gray leaf spot resistance, and excellent heat and drought tolerance (TWCA Qualified).

Drought Tolerance

- TWCA Qualified
- Brown Patch Resistance
- Heat Tolerance
- Gray Leaf Spot Resistance
- Shade Tolerance

GLX Aced tall fescue

A dark green tall fescue with exceptional turf quality and fine leaf texture. GLX Aced is a top performer in gray leaf spot resistance and overall disease tolerance.

Disease Resistance

- Turf Quality
- Gray Leaf Spot Resistance
- Fine Leaf Texture
- Dark Color
- Drought Tolerant

New Moon Kentucky bluegrass

The overall turf quality of New Moon has proven to be one of the best in trials conducted across the United States. New Moon's remarkable turf traits include shade tolerance, disease resistance, drought tolerance, early spring green-up, and great density.

Disease Resistance

- Disease Resistance
- Traffic Tolerance
- Low Mow Frequency
- Winter Color
- Low Maintenance
